

ACTIVE STAGE & LIGHTING

Safety Testing & Inspection

DANGER
Electric shock
risk

from
£395

All overhead equipment, including lighting rigs and curtain tracks should be periodically inspected to ensure that the installation is safe and remains fit for purpose.

Most insurance companies will also insist on a periodic mechanical and electrical safety inspection in order to maintain cover.

As professional experienced installers, we are pleased to offer:

- :: Periodic mechanical safety inspections of lighting bars, curtain tracks and rigging
- :: Periodic electrical safety inspections of lighting bars, winches and high level equipment
- :: PAT testing of stage lights, dimmer packs, control desks, etc

To learn more about our test & inspection services, please visit
